PROJECT MANAGER, PMP

PMP Certified Project Management professional with 7+ years leading cross-functional initiatives, managing stakeholder communications, and building systems to track timelines and workflows. Skilled at translating complex, multi-team projects into clear documentation, reporting, and follow-up. Comfortable working independently while keeping teams aligned across departments and external partners.

CORE COMPETENCIES

Project Management & Execution • AI-Driven Process Improvement & Automation • Team Leadership & Development • Cross-Functional Stakeholder Management • Operations Management • Risk Management • Budget & Financial Tracking • Vendor & Contract Management

PROFESSIONAL EXPERIENCE

Project Manager

2012 – 2024

YOLO Board | Santa Rosa Beach, FL

- Drove revenue growth of 230%+ through improved operational execution, product launch coordination, and e-commerce optimization across a \$700K–\$1M+ Shopify channel
- Oversaw product quality assurance and continuous improvement processes, including prototype testing, supplier validation, and customer feedback integration to maintain product standards and drive iterative enhancements
- Led supply chain resilience initiatives during COVID-19, identifying alternative suppliers, validating prototype components, and coordinating emergency logistics to maintain production continuity and customer fulfillment
- Owned international procurement and logistics projects, managing vendor relationships and container shipments (~\$150K per order) while coordinating purchasing decisions with demand forecasting
- Led cross-functional collaboration between design, manufacturing, and operations teams to deliver product launches on schedule, managing timelines and stakeholder communication throughout
- Coordinated product launch campaigns from design through market execution — collaborating with art and manufacturing teams on creative assets, building product pages on Shopify, and partnering with marketing and social media teams to execute presales and drive early customer interest
- Built and implemented a digital repair intake system allowing customers to schedule service, receive invoices, and complete transactions online — reducing manual work and improving customer experience
- Directed operations for a \$1M+ retail division and \$500K–\$750K e-commerce channel, ensuring inventory availability and fulfillment efficiency across multiple locations
- Built and maintained systems to track project timelines, action items, and operational performance across multiple business units
- Maintained hands-on involvement in bike assembly, repairs, and customer service alongside management responsibilities, providing direct operational insight that informed project decisions and continuous process improvements
- Managed and developed a team of 5–10 employees, overseeing scheduling, accountability, and performance outcomes

Licensed Insurance Agent (Remote)

2024 – 2025

Globe Life | Crestview, FL (Remote)

- Promoted to manager within 6 months and trained new agents on sales techniques, client engagement, and performance metrics
- Managed full-cycle client engagement remotely, from prospecting through closing and follow-up, communicating clearly across a high-volume daily schedule
- Achieved 45% close rate through structured virtual presentations and consistent client communication, demonstrating ability to execute at scale under high-volume conditions

Amazon Delivery Associate

2025 – Present

Amazon DSP | Milton, FL

- Deliver packages for the #1-ranked DSP in the nation (2024), maintaining GOLD-rated status throughout tenure by consistently executing high-volume daily routes under strict time constraints and managing customer interactions professionally
